

Ken McDaniel of Kenmark Air is Nationally Recognized for his Expertise in Energy Saving AeroSeal HVAC Duct Repair Technology.

Kenmark Air teams with Efficiency First and AeroSeal for October 30 webinar to help HVAC professionals take advantage of changing market conditions.

Fort Myers, FL ([PRWEB](#)) October 25, 2012 -- Ken McDaniel, President & CEO of [Kenmark Air](#) has been selected by [Efficiency First](#), a national, non-profit trade association promoting high quality, energy-saving residential retrofits and home improvements, to be one of two key speakers during an upcoming webinar, sponsored by AeroSeal duct sealing technology.

Efficiency First works with legislators, public utility companies, government agencies, and public-private markets to create programs that support energy efficient home improvements. Teaming with [AeroSeal](#) for the first time, the non-profit is hosting this event to highlight the critical role that duct sealing plays in improving home energy efficiency, reducing greenhouse gas emissions, and improving national security and economic growth.

As a regional innovator in the rapidly growing field of duct repair, Ken has been asked to share his thoughts, expertise and experience with other industry professionals about how this exciting technology can be promoted and utilized throughout growing home improvements markets, to the advantage of everyone involved – industry professionals and homeowners alike.

Kenmark Air is proud to have been selected to be the exclusive Southwest Florida HVAC Specialist offering AeroSeal Duct Repair services. This exciting new technology seals leaky ducts from the inside out, quickly and efficiently, greatly improving the cost-effectiveness of the energy and money-saving technology.
